

Bible Society Satellite Masterclass Package

Overview

Bible Society's Satellite Masterclass provides schools and youth groups in rural areas access to Masterclass talks from engaging and talented speakers. Satellite Masterclass is a video-based service that enables you to run your own Masterclass at any time that suits your community, wherever you are in Australia. It is the perfect solution for those who have difficulty attending one of the Masterclass events across the country. We will provide you with a library of video resources for your students, materials and advertising. A key part of the day is the Q&A; this allows students to ask their difficult questions and receive answers in real time. Additionally, you can access MasterQ, a library of engaging video responses to real student questions.

1. What are the requirements from Satellite Masterclass hosts?

There are a few things that schools/youth groups will need to organise before hosting a Satellite Masterclass:

- A venue, with an appropriate capacity for the group invited.
- Certain AV requirements
 - Wi-fi capabilities
 - Projector, screen and laptop
 - Videos will need to be downloaded and tested prior to the day
 - Access to Skype for live webinar
 - Microphone and sound system
- It is expected the host will actively promote the event within their organisation.
- While not required, we encourage hosts to consider providing catering for the event, depending on the number of students attending.
- Masterclass aims to foster collaboration between schools. It is expected that the host will actively invite other groups from their community to join the event. As a result, there should be 3 or more groups attending to guarantee Bible Society's support.

2. What can hosts expect from Bible Society?

Bible Society aims to provide hosts with enough support to hold a fruitful and engaging day for students. Some thing you can expect from us are:

- a wide variety of video resources with popular speakers and topics. Whether your focus is missional, foundational or topical, we have 6 years' worth of past talks that you can choose from.
- BSA can provide a face-to-face contact or coaching to ensure that the day is stimulating, engaging and fun!
- promotional flyers, videos and PowerPoint slides to assist your own advertising.
- As well as advertising through your local communication channels, BSA will help spread the word by promotion through email.
- Subject to availability, a live Q&A session over Skype can be organised with one of our talented speakers. This allows students to interact and engage with the talk and also ask their own questions. If our speakers are not available, you may find the MasterQ library of video responses useful.
